Personal Statement

Adventurous and determined student with an expanding eagerness and willingness to make a substantial contribution within the workplace. At my finest when presented with a challenge, because of this I establish challenges in all aspects of my life- from participating as a course representative in my initial university year to learning three thoroughly different musical instruments. My time as course representative has presented me as a passionate individual, deriving from my enjoyment of communicating- whether it be comprised of intriguing debate or casual conversation.

Due to this I have also relished in team commanding roles from experience gained in instructing teams for university projects. For example, in my first year of studying I had to lead a team of developers working on a C++ version of the game Snake, this helped improve my ability to work towards deadlines and manage tasks between my team members. My time at Jet petrol station and Home Bargains has also improved my retail and customer service abilities, ensuring customers always want to return. Not only a capable team leader but a valuable team member who will strive to perform his best at any appointed task.

Other

- Music has always been a strong passion, as a result I have obtained and continue to practice the following skills:
 - Drumming (Obtaining RSL qualifications)
 - Ability to play the Guitar

Work Experience

Clarks, August 2022 – Present

- **Jubilee Way, DN15 6RB, Scunthorpe, Telephone: 01724 866462**
- Working as a sales assistant. Working here greatly improved my ability to sell products through speaking with customers. It taught me how to drive better sale numbers through being charismatic, and listening to their needs and wants.

Home Bargains, December 2020 – June 2022

- **Queens Rd, S2 4DR, Sheffield, Telephone: 0114 272 5709**
- Working as a retail assistant. Working here allowed me to further develop my customer service and customer handling skills, ensuring to provide a respectable face for the company. My problem-solving was also improved as I was entrusted with selling proof-of-age items to the public.

Gulliver's Valley Resort, August 2020 – December 2020

- **Mansfield Rd, S26 5QW Sheffield, Telephone: 01925 444888**
- Working as a ride operator. Working here allowed me to improve my teamwork, team leading and problem-solving skills allowing me to work confidently within a team even during busy stress inducing times. As a rider operator this job involved a great amount of responsibility like ensuring the safety of ride guests, this trained me to pay close attention to my work.

Jet Petrol Station, August 2017 – August 2018

- **Grange Ln S, Scunthorpe, Telephone: 01724 869973**
- Working as a retail assistant. Working here allowed me to improve my customer service skills, making sure I provide the customer with the best shopping experience possible. I also went beyond helping customers with abstract problems such as: needing directions, giving advice on several types of cars, and making sure I can help whenever possible. From this job I am now able to work effectively in fast and high stress environments.

CRAM Computers, June 2015

- **190 Ashby Rd, Scunthorpe, Telephone: 01724 277259**
- Working as an IT assistant. Working here involved fixing and trouble-shooting different PCs and computing equipment such as; printers, scanners, etc. This developed my customer service skills and problem-solving skills as I had to fix issues described by customers. I was able to fix PCs in an efficient and organized manner to ensure all the days jobs were completed.
